SY2019
Instructions for Adult Goals Tracking Form 2018-2019

Once students are enrolled in FACE, fill out an Adult Goals Tracking Form for each student. Use one form for each student goal. Maintain these tracking forms in each student’s file. Add a new tracking form when students identify a new goal. Include full-time, part-time, and flex-time adults in this process.

At least once a month, meet with all FACE adult students to reflect on their goals. On the Adult Goals Tracking Form, add the steps students have taken that show they are making progress toward reaching each goal. These steps may include completing a unit of study, earning a certificate, reading a book, filling out applications for work or further education, completing a project, etc.

Several times a year, add documentation of the progress students have made toward reaching their goals in files.

Following are the goal areas for end-of-year reporting on the Adult Achievements Roster.

Education
- Obtain GED or high school diploma
- Improve academic skills for college or other education
- Complete one or more college /training courses
- Improve reading skills
